THE PAN-HANDLE

Railroad Inspection Party Officials Arrived Here.

THE PROPERTY WAS INSPECTED

And the Party will Leave for the West this Morning—Several High Officials were in the Party, which Travels in Style—The New Cumberland Branch was Looked at Yesterday Afternoon. Officials Pleased with the Condition of the Road.

Last evening at 7 o'clock the inspection party of officials of the Pittsburgh, Cincinnati, Chicago & St. Louis Railroad Company—the Pan-Handle—arrived in the city from up the river. After inspecting the local properties of the road, the party will leave this morning for Steubenville and the west.

Among the officials in the party were Superintendent G. L. Peck, of the Pittsburgh division; Chief Trainmaster N. C. Deane, Assistant Trainmasters A. Mendenhall, R. E. McCarty, I. N. Ansell and Ed Morrell; Superintendent of Telegraph G. F. Brown; Engineer, Maintenance of Way W. C. Cushing; Master Mechanic M. Dunn, and others. The party did not go to a hotel, but remained on their special train in the yards. Their special train is made up of a coach and sleepers, together with a dining car.

As is well known, Pan-Handle inspections are not inspections in name only. Every department of the equipment is thoroughly looked after, and reports are made for requisite additions and improvements. The engine, No. 88, in charge of Engineer McCulloch, is fitted with cushioned seats at the front, where the officials can easily see the condition of the road bed, etc. The train travels very slowly and nothing escapes the attention of the inspectors. Yesterday was spent in an inspection of the main line between Colliers and Wheeling Junction. Leaving the junction yesterday morning, the special went up the New Cumberland branch to New Cumberland, which, by the way, is one of the most important freight points on the line. Coming back to the junction, the party came down the Fawcett branch to Wheeling, arriving shortly after 7 p. m. The local properties of the road were then given a thorough inspection and nearly everything was found to be in first class condition. The officials of the road feel satisfied with the recent increase in freight and passenger traffic on the Pevikew, which is now the most important branch on the Pittsburgh division.

From Wheeling the special train goes back to Steubenville, and to-morrow the inspection of the main line west from Steubenville to Columbus will be started, lasting probably two days. This line is one of the heaviest in point of freight traffic in the country. The work of making it double track all the way from Pittsburgh to Columbus is now nearly completed. When this is done, the road will be capable of a considerable increase in traffic, especially freight.

Messrs. C. M. Conley, of Pittsburgh, general agent, and W. F. Boyle, of Pittsburgh, traveling passenger agent, of the St. Louis & San Francisco lines, of the "Hotel Law" and "Hotel Route," were among the visiting railroad men in town yesterday afternoon. They report the western excursion traffic to be unusually heavy so early in the season, and anticipate a good business later.

S. H. Thompson, travelling passenger agent of the Missouri Pacific line, was in the city, on business connected with

his road. Mr. Thompson carries one of twelve very novel base ball season passes issued by the Cleveland base ball club. They are of solid silver, of the shape and size of a silver dollar, the name of the holder engraved handsomely on it.
